About RFCI

The Resilient Floor Covering Institute (RFCI), based in LaGrange, GA, is the flooring industry's association that provides support for a network of global resilient flooring manufacturers and those in the supply chain. The mission of RFCI is to enhance the long-term growth and well-being of the North American resilient floor covering industry. RFCI strategic goals include managing issues that affect manufacturing, products, and the people who use them, and which typically emanate from federal and state government agencies as well as non-governmental agencies and activist groups. Other key goals include promoting the resilient flooring category, developing guidelines and certification programs to ensure the quality and sustainability of resilient flooring products, their installation, and maintenance, developing and managing technical product performance standards, and market education. <https://rfci.com>
